- Implemented chatbot solutions to automate workflows and enhance user support.
- Optimized performance and ensured scalability with clean, maintainable code.
- Collaborated with teams, showcasing strong **teamwork** and **time management** skills.

PROJECTS

BLOG-CONTENT MANAGEMENT SYSTEM | SOFTWARE ENGINEER

Dec-2023 | Bangalore

|Repository Link

- I've built a blog content management site with Super Admin and Editor Admin roles. Super Admins can view/add editors, manage articles, while Editors can add/view articles.
- The front-end displays the latest five articles, with AJAX loading for more. Users can give feedback on articles. Plus, visitors can access the dashboard without logging in.

ROLE-BASED EMPLOYEE MANAGEMENT & LEAVE APPLICATION SYSTEM

Jan 2024 | Bangalore

|Repository Link

- Designed and developed an Employee Management System with role-based access control, featuring three user roles: Super Admin, HR, and Employee.
- The system allows Super Admins to oversee HR and Employee functionalities, HR personnel to manage employee data, and employees to apply for leaves, ensuring secure and efficient management of organizational resources.
